Sharp Exterior Pinstripe Design

The 103 produces gamer vibes with its pinstripe design and sharp exterior. It's an opportunity to feel your own style and build a stunning rig.

Address Your Lighting

The InWin logo radiates with addressable RGB lighting effects. It's controlled and synced with your motherboard software to customize your PC.

ASUS AURA SYNC

GIGABYTE RGB FUSION READY

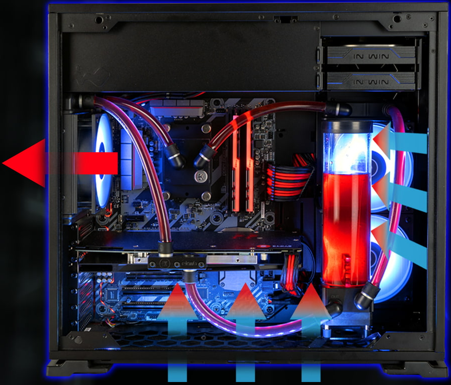
ASRock POLYCHROME SYNC

msi RGB MYSTIC LIGHT SYNC

* If your motherboard doesn't have a 3-pin ADD header, please use the provided RGB controller to connect to the InWin logo ADD RGB module and your PSU to set the default LEDs.

Accelerated Tool-less Glass Design

The 103's tempered glass side panel can be easily removed by pulling the tabs and lifting up. The tinted glass with pinstripe design enhances your system's visual appearance, and allows users to admire their builds inside and out.

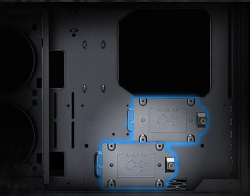


Stay Cool!

The 103 supports up to 6 fans and can accommodate radiators at the rear, side and bottom. This extremely flexible interior structure allows the users to have optimal cooling performance.

It's the Little Things that Matter

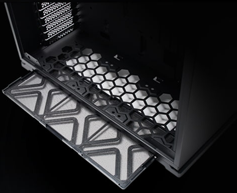
To provide the most user-friendly environment and the highest quality for our users, we've included the following:



Two 2.5" SSD mounts
in the back of
motherboard tray

Supports 3.5"/2.5"
HDD trays

Extra graphics cards
support holder



Quick removal dust filter

Tactical Thermal Treatment

The top PSU chamber makes the system cleaner and creates an ideal area for better airflow without interfering with the motherboard and graphics card.
